Recent Updates/Additions

Welcome to the supranatinal system

The communitarian plan for reinventing a global government was adopted by the UN in 1992 at the Earth Summit. There were no public votes cast for or against it in any of the affected "free" nations.
Average citizens were not consulted. In most free and democratic countries, the nation's taxpayers (who pay for it) were never even told about it. The major media outlets were mostly silent while for thirteen years, the UN's LA-21 laws have been imposed on all 166 member nations.

There were no big discussions of its purpose or ultimate consequences. It just slid into law. It's really pretty amazing. No major editorials, no explanation of how it would be imposed, it was barely announced by the national governments who endorsed it. Only a few enlightened locals understand LA-21 requires a total reorganization of government systems. It eliminates individual rights in the free countries. National systems of political economy are subserviant to LA-21 laws. It was generally thought to be a "good thing." So few people bother to read their new local vision for community, even if they know there's a plan. It's presented by experts. Really nice people promote it as a just, scientific, non-threatening way of cleaning up the world. It's a grassroots, holistic, sustainable development movement. Who's going to argue with that if they don't even know what it means?

Update December 22, 2005 -- ACL research has been viewed by thousands of visitors from all over the world. Not one person has ever provided contrary evidence that this global blueprint for local sustainable "community development" does not really exist. Searches for the term "Agenda 21" have increased tenfold in the past year. Our research is a topic at many forums, and the above passage has been pasted on numerous American discussion boards. "Has anybody heard of Agenda 21?" is the most common opening comment. In some groups no one ever responds to the question. When there's a "skeptic" they all use the same basic idiotic response. Name-calling is frequently used to shut down any further civilized discussion. Ad hominem slander like "This is a hamhanded conglomeration of Black Helicopter lore, Bircherite phantasmagoria, and political illiteracy. With maybe a little Illuminati and Elders of Zion thrown in," is a typical communitarian response to a valid inquiry. "I'm a novice in international politics," or "No, I have never heard of it," would be too illuminating for non-
adepts. For good examples of communitarian environmental law, see: European Environmental Law-Communitarian legislation (directive 94/62/EC, and related commission decisions) and pdf-Harmonization and harmonizing measures in criminal law (which explains: "The European Commission points out that there is a considerable body of communitarian environmental law, and that Member States are obliged to provide for effective, dissuasive and proportionate sanctions.") Please send your local-to-national resistance links, valid commentary, or referenced rebuttals to nikiraapana@gmail.com.

---

Here's the official definition for Sustainable development

These are their primary official sites:
- United Nation's Local Agenda 21 homepage
- The History of the U.N.
- U.N. Facts.
- Agenda 21: Number of formally committed municipalities from Earthtrends in 2001.

Be sure to visit: International Council for Local Environmental Initiatives (ICLEI). "ICLEI's mission is to build and serve a worldwide movement of local governments to achieve tangible improvements in global environmental and sustainable development conditions through cumulative local actions."

Communitarianism is the political theory that supports LA-21 redevelopment.

There's nothing local about Local Agenda 21. Local Agenda 21 is the programme for a supra-national government.

The ideology that requires us to rebuild the world into ONE giant, global community is communitarianism. Dialectical "thinking" is the foundation for our new global LAWS. Dr. Amitai Etzioni, the Communitarian Network founder, is the "guru" of globalization. Etzioni advises state governments and
he is a prominent player in many Global legal sessions (sharing his more moral advice). He's been an adviser to several US Presidents and he is the most influential Israeli working in the White House today. Etzioni's recent attendance at the very exclusive **World Political Forum** in Turin (March 2005) shows his powerful role in planning for an international government. This "former" terrorist also co-founded the whole new "science" of **SOCIO-ECONOMICS** with "former" communist Mikhail Gorbachev.

See also: [Furman Center for Real Estate and Urban Policy, NYU](https://www.furmancenter.org) holds a Seminar on "Community Development Law," including "Property Theory: This seminar, taught by Professor Wyman, examines contemporary debates about property using a range of legal, historical, and philosophical materials. The seminar begins by considering four theoretical approaches to property law: the classic utilitarian justification for private property; the Lockean case for property; contemporary rights-based theories of property; and communitarian perspectives. The seminar applies these approaches to live controversies in areas such as environmental and intellectual property law. Drawing on the four theoretical perspectives, the seminar then addresses a range of topics, including property and economic development, the tragedy of the commons, the limits of property rights and markets, social norms, takings, and reparations."

---

**Coming here from outside the U.S.?**

Many nations from Cuba to Romania to Ecuador to New Zealand have established communitarian development integral programs like the [Ministerio de Energia y Minas](https://www.minenergia.gob.es). There are hundreds of international communitarian development volunteer programs (for well-to-do Western whites), and communitarian development schools are rapidly popping up all over the world, like the [Waikato Management School- A Model for Communitarian Approach to Accountability for Sustainable Development](https://www.waikatomanage.school.nz). There are even [Communitarian development consultants](https://www.consultancies.com). It appears the ONLY place in the world where it is not openly identified as "communitarian development" is in the United States where communitarian anything is in direct violation of constitutional law. Communitarian development is often disguised as **global giving**. The oldest professional "givers" are in the **UK** and across the "former" British Empire. It's always taught as [An Emancipatory Communitarian Approach to Vocational Development Theory, Research, and Practice](https://www.emancipation.com). For Western defined "third world economies," communitarian development signals the final death blow to poor, indigenous people. The [United Nations Organisation pour la promotion et l'épanouissement de la femme nigérienne "Rayouwan Mata"](https://www.un.org) is a false front for global slavery and minority oppression. It uses inequality and famine to promote Western Zionist Communitarian Development "principles."

If you are coming here from outside the United States, please know that we are openly opposed to communitarian laws and plans. This site does not support eliminating
nations in order to form a one world community government.

Many nationals come here after searching for specific country's Local Agenda 21 Plans. (Most notably from the Philippines looking for Philippine Agenda 21. Many Filipinos are searching for Marxism, communism and democratic ideals lately. What's going down in the Philippines?). If you agree with us, or if there is any organized local resistance in your country against your Plan, we'd like to know. From the number of visitors lately, it appears this powerful and important legal document is finally getting the national attention it deserves. Every country in the world has a Local Agenda 21 blueprint, even though many remain unfinished. We link to several of them here if you cannot find yours online. We appreciate links to opposition sites from anywhere in the world. It's not only our country that will disappear under this plan. Iraq had one before Operation Freedom, and hardly any of their plan was filled in. This really is the plan for a global government. The entire world is at risk.

Example of recent LA-21 job openings in the Philippines:
Date Posted: 12 Oct 2005, Organization: Louis Berger Group, Country/Region: Philippines, Apply By: 01 Nov 2005, Contact Information : Email: egrant@louisberger.com Please reference the "Recruiting Center at DevelopmentEx.com" when you apply by email. Description: The Louis Berger Group, a leading environmental engineering firm operating worldwide in more than 90 countries, is seeking qualified Filipino candidates for a 6 month project to evaluate Greenhouse Gas Emission inventory for the Laguna Lake Development Area. Applicants should be both citizens of and currently located in the Philippines- experience in greenhouse gas emissions and environmental evaluation is a plus. Positions include: 1. Environmental Management, 2. Scientist, 3. Environmental Scientist, 4. GIS expert (with background in satellite imaging), 5.Modeler, 6. Forester, 7. Training Specialist. Source: The Development Group. (WARNING! The money is very tempting.)

I don't make jokes. I just watch the government and report the facts.
Will Rogers (1879-1935)

1. How U.N. Agenda 21 is directly tied to the U.S.:

*NEW! Big Dreams for the Big Easy* - What New Orleans could look like the second time around
By Timothy Lange, 15 Sep 2005. Here's *Agenda 21 and Hurricane Katrina* in German. (Here's a Partial english translation.)

Earth Charter USA, OUR NEW MORAL AND LEGAL CODE.

United States of America's United Nations' Local Agenda 21 Plan

US Municipalities Undertaking Sustainability Initiatives-- LA21 Initiatives
"Without further ado, let the Business Action begin!"

"Paris, 3 May 2005 -- These were the words of the United Nations Commission on Sustainable Development 13 (UNCSD 13) Chair, John Ashe, when he opened the Business Action event, at the high-level segment of the annual conference in New York last week. Set in motion to demonstrate the business community's commitment to help resolve the global challenges on water and energy, Dr Ashe commended the initiative. "If you are not part of the solution, you are part of the problem," he said. "These initiatives show that business is part of the solution." He also encouraged business to increase its involvement in partnerships."

Local Agenda 21 got a gigantic push forward by the U.S. Supreme Court on June 23, 2005! The last American legal barrier to implementing global standards for sustainable development "principles" has been removed. The Fifth Amendment Right to private property is so muddy now it basically no longer exists. All property in the United States is up for grabs. Hurry down to your local community development council and get your bid in now. All you have to do to get in the game is come up with a "better use" for the land.

Individual rights lose against community rights, five to four -- Homes may be 'taken' for private projects. Justices: Local governments can give OK if it's for public good by The Associated Press, June 23, 2005, at msnbc.msn.com. "WASHINGTON - The Supreme Court on Thursday ruled that local governments may seize people's homes and businesses - even against their will - for private economic development.

Living Lakes and Agenda 21 freely calls it a UN plan, whereas Anchorage 2020 does not. (See Anchorage's Code Compliance Photo Gallery.)

2020 is a key word in identifying LA-21 plans and community mapping/security programs i.e. NIC 2020.

Civil Society aims described by the World Federalist Association of Northern California: This worldwide organization has a 2020 Global Peace Initiative whose aim is to create a culture of Peace by the year 2020. "This Initiative reflects a global vision of unity: one heart, one mind, working toward one goal. We are many races which form One race: the human race. Each and every one of us has a different place we call home: but ultimately this planet is our Home. While the name 2020 is symbolic, thereby working with and reinforcing positive mass conscious thought forms, it has also been chosen as a practical time-frame for humanity to work towards creating a culture of Peace. Princeton University's 'Great Experiment' which relates to measurement of emotion and directed thought
appears to support what metaphysicians have claimed for years: our thoughts impact our reality. The 2020 Initiative calls on UN member-states and non member-states to support the 2020 Initiative through action, specifically: 2. Formulating a global constitution supporting this Initiative, 3. Opening the borders-i.e. allowing free movement and residence of all Beings."

And yes, we've all heard the New World Order is nothing but a ridiculous American conspiracy theory. But let's be real here; it's impossible to negate the fact that there IS an organized plan for a global government. The United Nation's Local Agenda 21 is the blueprint for world government, and it's already being implemented across the globe. Just because most Americans have never heard of it doesn't mean it isn't real. It really doesn't get any more real than this.

All new communitarian laws that eliminate rights guaranteed by national constitutions are inside this international blueprint for rebuilding subserviant local political structures. Many of these spontaneous, grass-roots "visions" for rebuilding community plans are identical. And, none of them happened by "accident."

Seattle City councilmember Margaret Pageler: "The City of Seattle works for sustainable development at the local and regional level, in a program that parallels Local Agenda 21. The City Council endorsed the Earth Charter in a 2002 resolution."

A Sustainable Community within a seven mile radius of the City of Pacific, MO at pacificring.net.

Legislative History of National and Community Service.

Global Green USA. "We need a new system of values, a system which recognises the organic unity between humankind and nature and promotes the ethic of global responsibility," by Mikhail S. Gorbachev, former president of the USSR, former Communist turned communitarian, recent socio-economics partner with Amitai Etzioni. Gorbaachev thinks he's a more moral global leader of formerly free nations like the USA.

Nepotism and elite bloodlines prevail in the New Global Architecture. Global Green USA is directed by Diane Meyer Simon, who was a legislative aide to Senator Birch Bayh in the 1970s. Senator Birch Bayh's son, Evan Bayh, is a current Senator from Indiana and the leader of the Democratic Leadership Council (DLC). The DLC is the communitarian 3rd Way political organization that endorses a quietly implemented and completely "new" system for all Americans, regardless of what Americans think. Most Americans have no idea what the DLC or Green Cross represent, and since these organizations always speak about their goals in the loftiest of phrases, only a few astute listeners actually hear their communitarian propaganda. Most Americans DO NOT KNOW what a communitarian stands for. The ACL has a page devoted to the current Senator Bayh, called Bayhwatch. The ACL also has a page devoted to The Third Way.

Sample LA-21 Programmes operational in the United States:

- Community Policing,
- Landlord Training,
- Rebuilding Community,
- Mandatory Volunteerism,
- Regulatory Inspections,
- Asset Based Community Development,
- Rural Development,
- Urban Re-Development,
- Re Wilding America,
- Faith-Based Initiatives,
- Character Education,
- government
- child care,
- The Real National ID,
- and life long surveillance.

Most Americans share a valid concern for the state of the environment - by Gaylan King. Bill W. sent this link today (5/27/04), says it was circulated around Worland, Wyoming by BLM, 8 years ago!

U.N. Plan for Internet Control Tiptoes Forward by Cheryl K. Chumley April 9, 2004 posted by Capitalism Magazine.

Community Developments in Washakie County, Wyoming by Niki Raapana, March 18, 2004. This page is devoted to showing local residents tools for taking back their communities and identifying Local Agenda 21 facilitators in their backyards.

Planning and Community Development Links posted by Municipal Research and Services Center of Washington. To find your own Local Agenda 21 information do a keyword internet search for "[state, county, or municipal government]-and- community, sustainable, regional or rural development plans." Or better yet, file a public disclosure request with your local legal governing body and ask to view all planning documents relating to sustainable community, neighborhood, or rural development. Every state has these new land management plans, although they're called by slightly different names. In Florida, Iowa, and California they're openly called Local Agenda 21.

Here's an example of LA-21 corporate government structure in English (Finland's):
1997 United Nations List of Protected Areas in the United States. We got this link thanks to Jackie Patru.

Statement by Herbert Traub, United States Adviser, on Item 87(a): Implementation of Agenda 21 and the Program for the Further Implementation of Agenda 21, Before the Fifty-seventh Session of the United Nations General Assembly, in the Second Committee, November 14, 2002

Center for Democracy and the Third Sector, a new Ph.D. program at George Washington University, D.C. (The Third Sector, by Henry Lamb is a nice explanation of what U.S. elite Third Sector professional training has to do with Local Agenda 21.)

"The World Future Society is open to anyone who would like to know what the future will hold."

SUSTAINABLE MEDICINE + SUSTAINABLE DEVELOPMENT = DUTY TO DIE PART 1 OF 3- UN AGENDA 21 AND SUSTAINABLE DEVELOPMENT by Dr. Madeleine Cosman, Ph.D., JD, July 5, 2005, NewsWithViews.com.

Henry Lamb's research and essays on our loss of constitutional government at Freedom 21 Santa Cruz represent the more (or less) accepted "alternative" American opinions about our rebuilt America.

The Environmental Agenda by Gary Kah includes a nice background introduction to Mikhail Gorbachev.

**Faulty Shades Of Green** 2002-07-22, Source: Raj Patel. Posted at Creative Resistance, BC.

According to MSNBC, the far-right sees the United Nations as a precursor to world government, and the far-left sees it as a tool of the Imperial United States. So we see, even mainstream news sites like MSNBC speak to us only from the dialectic. There are more than two American views to the U.N., but as usual, we're expected to identify our opposition to the U.N. with either the far-right or the far-left. If we just cannot join one of the established opposition camps, we are labeled into the communitarian-Third Way camp, which is the Hegelian synthesis to the conflicts between the right and the left. As freeborn people, we still believe in the spectrum of infinite possibilities, and so the ACL considers the facts about U.N. Local Agenda 21 from outside the dialectic. Our opposition to submitting to a communitarian global legal system fits into none of their predetermined viewpoints.

### 3. How the U.N. Agenda 21 ties to the War on Terror:

**Iraq's Local Agenda 21 Plan.** Was this UN plan for rebuilding Iraq written before or after the latest joint US-British-Israeli Operation Freedom invasion?

**Syria's Local Agenda 21 Plan.** Was the Israeli need to "cut out Syria" and rebuild the old (1948) British-mandated pipeline that gave Iraqi oil to Israel included in Syria's "Local" Agenda 21 Plan? Does it matter that the proposed Haifa pipeline was already built in the 1980’s? or that "... an agreement has been quietly renewed every five years, with special legislation which permitted the United States to stock a strategic oil reserve for Israel, at a cost to the United States of $3 billion in 2002, even if this entailed domestic U.S. shortages."

**United Nation's Development Programme: The Arab States.** "Our work in Djibouti, Egypt, Jordan, Lebanon, Morocco, Palestine, Sudan, and Syria integrates social, economic, and environmental concerns into local and national development."

**Applied Research Institute-Jerusalem, ARIJ, Localizing Agenda 21**

**LOCALIZING Agenda 21 in Palestine.** Does Chapter 19 of AIRJ's plan for Localizing Palestine include plans for the Palestinian "wall?" (Note: this link to pictures of the wall is on an openly critical anti-Zionist/anti-Bush website that supports leftist anti-war efforts, but it has the only good pictures of the wall I could find. Does this "fence" really exist?) 6/5/04- here's the contractor information: McGraw-hill.
Saudi Arabia's incomplete Local Agenda 21 Plan... doesn't the format look familiar?

U.N.'s tentative agenda for the September 2003 Habitat Meeting includes plans for Egypt and Libya. Do the people in these countries know about this plan? Or is it like it is in the US, where only politicians, academics and "development partners" know about the Plans, and the majority of the population isn't told ANYTHING?

Lebanon's Local Agenda 21 Plan

Mediterranean Environmental Forum includes all Mediterranean nations in Local Agenda 21 plans, including Libya.

"A new world order must provide for the full and fair participation of the majority of the people of the world who live in developing countries. They must have equitable opportunities to share the benefits, just as they share the risks, of our technological civilization. And surely the highest priority should be accorded to eradication of the dire and debilitating poverty that condemns so many people, particularly in developing countries, to suffering and hunger that are an affront to the moral basis of our civilization. This is one of the primary themes of Agenda 21."

Remarks by Maurice F. Strong Chairman and Chief Executive Officer, Ontario Hydro Chairman, The Earth Council, The European Institute, Washington, D.C., USA, November 4, 1993

International Conference The Opportunity and Challenge of Diversity: A Role for Social Capital? Background Documents, November 24-25, 2003, Fairmont Queen Elizabeth Hotel, Montréal (Québec), Canada

4. How U.N. Agenda 21 blends communism:

PRC Sustainable Development Solutions: Markets, Rights and Democracy --- "Grave Concerns" Conclusion - Part Six

China's Agenda 21 includes a Capacity 21 contribution to communist China's Plan, in US dollars.

Even Taiwan has a Local Agenda 21 Plan, and they're not a member of the U.N.!

Does this mean China will give up wanting Taiwan and point their nukes somewhere else?

They're Building Sustainable Communities in Russia using Agenda 21, and even Cuba's got a Local Agenda 21 Plan
5. Imperial Great Britains' influence on Agenda 21: \textit{in their "endless adventure of governing men"}.

6. How Agenda 21 incorporates global Community Policing:

\textbf{President's Council on Sustainable Development: Chapter 5- Safe and Healthy Communities}

\textbf{Functions of Sustainable Community Systems for Transformation}, by Kenneth Hunter, 1999: "This chapter offers a perspective on ten functions of community-level systems, how to identify those which are crucial to community evolution and empowerment, the public policies which will facilitate them, and the actions required to support communities."

\textbf{A PWV Initiative in Community Policing}

\textbf{Religion and Social Policy}

\textbf{Project Harmony}: "The Community Policing Training Initiative supports democratic change by facilitating sustainable partnerships that empower law enforcement professionals, educators, city administrators, media specialists, and social service providers in Russia, Ukraine and the U.S. to build healthy and safe communities through collaboration, transparency and public accountability."
The Community Safety Initiative

Lockerbie, Scotland’s UPPER ANNANDALE AND ESKDALE AREA COMMITTEE
AGENDA, Meeting of Monday 8 July 2002, at 7.00 p.m. in the Town Hall, Lockerbie. #2 on the agenda is: COMMUNITY POLICING - Presentation by representative of Dumfries and Galloway Constabulary [pages 7 and 8].

7. How Agenda 21 ties to data gathering:

Global Vision: Sustainable City (formerly Zero Population Growth) Sustainable City is an international collaborative research endeavour to develop the world's first GIS (Geographical Information Systems) computer simulation programme for any town or city to see itself - and its surrounding environment - as a whole system. The project is now in development by Global Vision Corporation, a Non Governmental Organisation accredited to the United Nations Commission on Sustainable Development (CSD). It is part of the international follow-up to Habitat II - the Second United Nations Conference on Human Settlements (June 1996), where it was nominated as a Corporate Best Practice at the World Business Forum on Enterprise, the City, and Sustainable Development.

Sustainable City is designed as a practical tool for sustainable development planning. It is intended to facilitate the local implementation of Agenda 21, the blueprint for the sustainable development of our planet which was agreed at the United Nations Earth Summit in Rio de Janeiro in 1992. It is meant to be used in conjunction with the excellent Local Agenda 21 Planning Guide published by the International Council for Local Environmental Initiatives (ICLEI), the United Nations Environment Programme (UNEP), and the International Development Research Centre (IDRC). Its 48 applications will empower urban stakeholders to understand and balance their community, economic, and ecosystem development needs, and will enable them to:"

15 United Nation's Regional Cartographic Conference for Asia and the Pacific "A milestone for sustainable development".

Asset Based Community Development (ABCD). ABCD developed an 11 page "interview" that logs all our skills and abilities into a community mapping database.

Asset Based Strategies for Faith Based Communities ties community development to Bush's "Faith-Based Initiative".

Community Mapping Network, "The primary goal of the Community Mapping Network (CMN) is to provide a service that collects and integrates natural resource information, maps and mapping information to promote sustainable resource management and to assist planning
Community Mapping, Planning and Analysis for Safety Strategies (COMPASS). COMPASS is another specific ACL Area of study

HELP: Human Early Learning Partnership. This is how Agenda 21 designs community development data gathering programs that will control our children’s futures.

8. Here's a sampling of "spontaneous" local sustainable development movements around the world:

"All over the planet, cities are carrying out the "utopias" of Sustainable Development. Inspired by the World Environment Day slogan "Green cities, plan for the planet", Geneva is inviting innovating cities across the world to come and present their best practices."

Conference:"Innovating cities across the world". "From the 11 to 13 October 2005, the S-DEV Geneva 05 Conference will showcase innovative and participatory solutions proposed by 25 cities from all continents. Their innovations are ingenious, simple, efficient and cost-effective. The key to success is coordination and synergy between the following four poles : sustainable technologies, active citizenship, new governance and corporate responsibility. An annual rendez-vous of Sustainable Development, S-DEV Geneva 05 focuses on the exchange of concrete solutions articulated around a Conference, Workshops and an Exhibition, bringing together local authorities, public services, enterprises, NGOs, researchers and International Organisations.

Havanna 2005 UN Habitat United Nations Human Settlements Programme The Sustainable Cities Programme and the Localizing Agenda 21 Programme-6th Global Meeting of Partners. "The 2005 Global Meeting of the Sustainable Cities Programme (SCP) and Localizing Agenda 21 Programme (LA21) partners will take place from 26 June to 1st July in Cuba, hosted by the City of La Havana. The meeting offers the partners of the UN-HABITAT Urban Environment Section the opportunity to advance their collective know-how, exchange experiences, review activities, and discuss how to mainstream Environmental Planning and Management (EPM) into local, national and global policies. The meeting will bring together: mayors, high-ranking city officials, urban practitioners, representatives of central/federal governments, urban institutions, heads of international support programmes and key representatives of donor agencies. The
meeting is organized jointly by UN-HABITAT, UNEP, the Government of Cuba and the City of La Havana."

Note to U.S. Americans from the U.S. Department of State December 06, 2004. "COUNTRY DESCRIPTION: Cuba is a totalitarian police state, which relies on repressive methods to maintain control. These methods, including intense physical and electronic surveillance of Cubans, are also extended to foreign travelers. Americans visiting Cuba should be aware that any encounter with a Cuban could be subject to surreptitious scrutiny by the Castro regime's secret police, the General Directorate for State Security (DGSE). Also, any interactions with average Cubans, regardless how well intentioned the American is, can subject that Cuban to harassment and/or detention, amongst other forms of repressive actions, by state security elements. The regime is strongly anti-American yet desperate for U.S. dollars to prop itself up."

**Philippine Agenda 21** is the nation's blueprint for sustainable development. In concreting the vision, it describes a path for individuals, families, households and communities; an action plan for each ecosystem (coastal/marine, freshwater, upland, lowland, and urban); and across ecosystems in consideration of the interaction of the various lifescapes and landscapes found therein. The path is grounded on respect and active advocacy for the empowerment of the various social groupings of society to manage the economy, critical resources, society and culture, politics and governance and in the arena of foreign relations.

Philippine Agenda 21 advocates a fundamental shift in development thinking and approach. It departs from traditional conceptual frameworks that emphasize sector-based and macro concerns. Philippine Agenda 21 promotes harmony and achieves sustainability by emphasizing:

* A scale of intervention that is primarily area-based. The national and global policy environment builds upon and supports area-based initiatives.

* Integrated island development approaches where applicable. This recognizes the archipelagic character of the Philippines which includes many small island provinces.

* People and integrity of nature at the center of development initiatives. This implies the strengthening of roles, relationships, and interactions between and among stakeholders in government, civil society, labor and business. Basic sectors have an important role to play in achieving equity and managing the ecosystems that sustain life.

PA 21 envisions a better quality of life for all Filipinos through the development of a just, moral and creative, spiritual, economically vibrant, caring, diverse yet cohesive society characterized by appropriate productivity, participatory and democratic processes, and living in harmony and within the limits of the carrying capacity of nature and the integrity of...
PA 21 was adopted on 26 September 1996, with the issuance of Memorandum Order No. 399 by then President Fidel V. Ramos which identified the roles of the Philippine Council for Sustainable Development (PCSD) and each sector in the operationalization of PA 21. The action agenda is based on the imperatives of the current national situation and emerging landscape for sustainable development.

PA 21 is a dynamic document that will continue to evolve as new challenges and opportunities emerge, as the level of consensus continue to deepen in the Philippine society, as the Filipinos attempt to solidify the framework, as the government continue to refine the processes, and as the Filipinos strive to widen and enrich their understanding of each other to pave the way for new modes of collaboration.

Here's the. "The Center for Alternative Development Initiatives (CADI) is a Philippine-based civil society organization (CSO) dedicated to the study, encouragement and implementation of sustainable development through threefolding, partnerships. CADI was established in February 1988 to spread the reality of holistic sciences and philosophies of human beings, society and nature."

**Agenda 21 for Culture**: "The Agenda 21 for Culture promotes the adoption of a series of principles, commitments and recommendations to strengthen the development of culture on an international scale from the local arena, considering it as a collective right to participation in the life of societies."

**Office of Sustainablity - Local Agenda 21**

**Republic of Korea's Local Agenda 21 Plan**.

Here's **Rome, Italy's Local Agenda 21**. One of their "activites": Data bank on the best practices in reconverting processes, micro and macro economical data, national and communitarian laws, etc.

**An Agenda 21 for the Baltic Sea Region.**
Portugul's Agenda 21 Plan.

Hannover, Germany's Local Agenda 21 Plan

Colombia's Local Agenda 21 Plan

Argentina's Local Agenda 21 Plan

A selection of institutions working on Local Agenda 21 and related issues in the Asia-Pacific Region

Indonesia's Local Agenda 21

Canada's Local Agenda 21, "Indigenous peoples represent a significant part of the world's population with unique contributions to make to the achievement of the goals of Agenda 21, based on ways of life directly dependent on the utilization of wild living resources. Indigenous peoples have evolved a holistic, traditional scientific knowledge of the land, natural resources and environment they interact with and depend on to maintain their well-being."

Mexico's Local Agenda 21

U.N. Local Agenda 21 is not a local or grassroots movement of an evolving, holistic, more moral humanity, no matter what evolved British-Israeli or Fabian scholars tell us. Local Agenda 21 is a top-down global-government program created by the U.S. in collaboration with communist and imperialist governments. Agenda 21 will over-rule national and state constitutions.

9. Here's how U.N. Agenda 21 promotes elitist eco-tourism:

Ecotourism Links selected by Claudia Fox. "Explore these links for a deeper understanding of Ecotourism."

TBR "THE MISSION OF THE TRAVEL BUSINESS ROUNDTABLE (TBR) IS TO EDUCATE ELECTED OFFICIALS ABOUT THE IMPORTANT ECONOMIC AND SOCIAL CONTRIBUTIONS OF THE TRAVEL AND TOURISM INDUSTRY." (Nice overview of corporate influences over elected public officials.)

New Marine Conservation Area to Span Four Nations by John Pickrell for National Geographic News, February 26, 2004
10. Here's how Agenda 21 ties to the Peace Movement:

Sustainable Development Requires Peace.
European Network for Peace and Human Rights
Peace Matters, UK.
CONTACT, Training a New Generation of Peacemakers.
Seattle University, Social Justice Education
Taskforce for Change- this organization appeals entirely to emotive reasoning and like all the rest of these Hegelian change NGO's, their bottom line is to "Endorse a global plan that supports country programs including the transportation, law enforcement, urban planning, and public health sectors."

11. Here's how Local Agenda 21 ties to our health:

Human Health, a Local Agenda 21 sub-topic.

Agenda 21-6: Protecting and Promoting Human Health, Earth Summit, 1992

From our British friends, we learn The Key Quality of Life Issue.
12. Here's some holistic organizations that work for U.N. Local Agenda 21 objectives, but pretend they work for the "planet":

- **Holistic Development** The Auroville Earth Institute, UNESCO Chair Earth Architecture.
- **International University for Human Transformation** "As a part of personality development, counselling sessions are conducted regularly for the students who are selected through a system based on proactive approach of identification of potential counselling needs. Graphological Analysis, Personality Analysis and Standard Psychometric Tests are used as tools by the counsellors to get the holistic perspective about the potential users."
- **ISPO: From Globalization to Sustainability-A New Global Policy for Social Justice.** The Imperial British plans to "restore" global democracy takes many forms, and this organization is going to convince us all to elect politicians who will simultaneously implement their sustainable agenda. Like most of the British programs for "world peace and social justice", ISOP has the support of many well educated academics, including Noam Chomsky.
- **The Alan Savory Center for Holistic Management.** "Holistic Management enables you to improve the quality of your life while enhancing the environment that sustains us all. And it's all based on a simple change in the way you make decisions. Holistic Management gives you a practical way to develop a clear, focused vision for your future, and enables you to plan how to get there in the most economically, environmentally and socially sound way."
did they find this lovely terminology?

Holistic Solutions, financial planning for a sustainable world.

Holistic Resource Management, Texas

Sustainable Northwest.

The Change Project

Goebel and Associates, Conflict Resolution and Consensus Building.

13. Here's how Agenda 21 ties to feminism:

"A leading American feminist and human rights activist, Bella Abzug (1920-1988) [pictured right] served in Congress from 1970 to 1976. In the years that followed, she headed the National Advisory Committee on Women, founded Women, USA, and co-founded the Women's Environment and Development Organization."

Betty Friedan endorsed the Communitarian Platform.

Women’s Rights in A Global Context by Margaret A. McLaren, Rollins College 2005 Conference Papers. "Communitarian feminist critiques echo some of these concerns, but focus more on the issues of identity and community and their significance in our lives."

Women's Environmental and Development Organization (WEDO).

DAWN.

UN instraw.org (pdf): Women, the Environment and Sustainable Development, Towards a Theoretical Synthesis, with a preface by Bella Abzug.
